To
The Chairman,
Sports Council,
Kerala University of Health Sciences (KUHS)

Subject: Request for the Re-implementation of the KUHS Men's Badminton Team

Respected Sir/Madam,

We, the undersigned students, respectfully submit this request regarding the re-implementation of the KUHS Men's Badminton Team.

Approximately three years ago, KUHS had a men's badminton team that represented the University in various inter-university competitions. However, for the past three years, no such team has been constituted, depriving many talented students of the opportunity to represent the University.

This concern has been raised on several occasions, yet no action has been taken. There are a large number of students across KUHS-affiliated colleges who are highly interested in badminton and possess the talent and dedication required to compete at the university level. Re-establishing the team would not only encourage student participation in sports but also provide deserving players with a platform to showcase their abilities and bring recognition to KUHS.

We therefore humbly request the Sports Council to take the necessary steps to re-implement the KUHS Men's Badminton Team from this academic year and conduct appropriate selection trials so that interested and deserving students can represent the University.

We sincerely hope that our request will be considered favourably and that KUHS will continue to promote sporting excellence by providing equal opportunities to talented students.

Thanking you.

Yours faithfully

SASIKALA

28 th July 2026

Subject: Request for the Implementation of a Men's Kho Kho Team in KUHS

Respected Sir/Madam,

I respectfully submit this representation on behalf of the students regarding the implementation of a Men's Kho Kho team under the Kerala University of Health Sciences.

KUHS had a Men's Kho Kho team about three years ago, and at that time the competition was conducted in Calicut. However, after that event, there has been no Men's Kho Kho team representing the university. On the other hand, the Women's Kho Kho team has been consistently representing KUHS every year in various competitions. At present, many male students from different affiliated colleges are highly interested in representing KUHS in Kho Kho competitions. There are so many talented men who are willing and eager to participate and showcase their skills at the university level.

Kho Kho is a popular indigenous sport that is played enthusiastically by students across various affiliated colleges. However, at present, KUHS does not have an official Men's Kho Kho team to represent the university in inter-university competitions. This deprives talented players of the opportunity to showcase their abilities and represent the university at higher levels.

Therefore, we humbly request the Sports Council to kindly consider this matter and take the necessary steps to constitute and build a strong Men's Kho Kho team from this academic year onwards. Conducting selection trials and providing students with an opportunity to represent KUHS would greatly encourage participation in sports and promote indigenous games within the university. We are confident that the selected players can perform very well and bring pride to the university.

We sincerely hope that the Sports Council will consider this request favourably and take the necessary action at the earliest.

Thank you for your time and consideration.

Yours faithfully
